MAXURE AUDIO PODIUM

MX PA 100

OVERVIEW

The MAXURE Audio Podium is a professional-grade sound reinforcement solution, purpose-built for classrooms, lecture halls, conference rooms, auditoriums, and public speaking environments. Engineered with a high-performance inbuilt audio system and integrated microphone support, it delivers powerful, crystal-clear, and distortion-free sound-ensuring every message is heard with precision and impact.

Crafted with a robust metal body and a sleek, contemporary design, the MAXURE Audio Podium blends durability with refined aesthetics to complement modern spaces. Its intuitive centralized control panel enables effortless operation, allowing speakers, educators, and presenters to focus on delivering their message while the system handles seamless audio performance-without the need for complex external equipment.

SOLUTION

Highlights

High-power inbuilt audio amplifier for clear and powerful sound

Dual gooseneck microphones for hands-free speech

Wireless handheld microphone support for mobility

Integrated high-clarity speaker system

Centralized control panel for easy volume and source control

Multiple audio input and output connectivity options

Durable metal body with premium powder-coated finish

Silent cooling system for continuous operation

Suitable for indoor and outdoor presentations

Designed for long-duration professional use
